CAL INDUSTRIAL SALES

MANUFACTURER'S SALES REPRESENTATIVE

Russelectric® A Siemens Business, manufactures Automatic and bypass isolation transfer switches, paralleling switchgear and microgrid control to help ensure 100% uptime. We engineer solutions for hospitals, data centers, airports, water treatment, renewable energy, DoD and other mission-critical facilities. Responsive field service, Preventive maintenance, and upgrades for all products provided by Russelectric field service engineers.

Sprecher + Schuh offers a wide range of low-voltage industrial control products, including contactors, a variety of relays, starters, push buttons, switches, terminals and controllers.

ANAMET Electrical, Inc.

ANACONDA SEALTITE®

Anamet Electrical Inc. – For over 100 years Anamet has been the global leader in the flexible liquid-tight electrical wiring conduit and industrial stainless steel stripwound hose markets. Our SEALTITE® brand name is recognized worldwide for our innovation and quality. We support all industries from residential/commercial construction, MRO, OEMs, government, RFI shielding, power generation, mass transit, utility, oil/gas, food processing, nuclear, and chemical processing.

MELTRIC manufactures a full line of industrial plugs and receptacles, including our signature brand of UL-listed Switch-Rated devices with DECONTACTOR™ technology and push-button circuit disconnection. These all-in-one devices combine the safety and functionality of a disconnect switch with the convenience of a plug and receptacle and can be safely connected and disconnected under full load.

Invertek is dedicated to providing easy to use AC drives for the control of electric motors in industrial automation applications around the world. Our AC variable frequency drives provide energy efficient control across a range of applications that include fans, pumps, industrial automation, HVAC building services and more. From fractional to 400HP, we can handle your demanding applications in production level environments requiring IP20, NEMA 12 or NEMA 4X variable frequency drives.

Marathon has an extensive product line of AC motors 180 frame and larger. General service, VFD Rated, HVAC, Pump Motors and Class 1 Div. 2 hazardous location. PMAC & PMDC Motors. Micro MAX™, Black MAX®, Blue MAX®, SyMax™

INDUSTRIAL

MEDICAL

The leader in ground fault detection systems for grounded, ungrounded and DC electrical systems. Bender ground fault systems provide increased electrical safety and reliability in critical electrical infrastructure. Bender Healthcare Isolated power panels provide isolated power to electrical systems in operating rooms and other critical care areas. Build to spec, designed and assembled in the US.

Americas Largest Manufacturer of High Impact Polycarbonate Enclosures with more sizes ranging from 6"x6"x3" through 24"x24"x10" than any other mfg. NEMA 4X and 6P rated. UL/CUL/CE and IP rated. Stronger, lighter, and more UV resistant than fiberglass enclosures. Eco-friendly recyclable. Stainless Steel designs also available.

CRITICAL POWER SOLUTIONS

When the biggest cause of outages is uninterruptible power supply failure, fully-vetted, reliable backup power is a pretty big deal. Whether you need a high-quality three phase UPS for your hyperscale data center or a small single phase system for your network, the EverPower™ line of critical power solutions delivers unrivaled reliability and efficiency.

Pfannenberg is the leading global manufacturer of enclosure thermal management equipment, and liquid cooling solutions for industry. Filterfans, AC units, heat exchangers, chillers, and a complete line of signaling products.

- GracePort® Panel Interface Connectors are convenient access ports that allow you to safely bridge the risky gap between you and your PLC.
- GracePESDs® are Permanent Electrical Safety Devices that aid in mechanical and electrical LOTO. Products include Voltage Indicators, Voltage Alert Wristbands, Voltage Portals and Safe Test Points.
- GraceSense™ IIoT smart devices make up our Predictive Maintenance System; a suite of continuous asset health monitoring technology.

Leading manufacturer of power and signal interconnect products, PCB terminals and connectors, din rail terminal blocks, power supplies, Industrial Ethernet, Programmable safety controllers, "PODIS" power distribution systems, and Heavy Duty Connectors.

TK manufactures an extensive range of industrial cables and connectivity solutions for industrial applications including motion control, renewable energy, and transportation. Icotronix, part of TK group, designs and manufactures M23 connectors in Germany.

E-T-A offers over current protection for the automation & process control industry. This includes circuit breakers, electronic circuit protectors, solid state relays, and intelligent power distribution systems.

We have developed a complete line of standard power distribution products such as step up and step down portable transformers, load banks, quick connect docking stations, I-line panels, spider boxes and other equipment using the latest technology, while maintaining the quality and versatility you have come to expect from Power Temp Systems, Inc.

We solve customers' unplanned production stoppages and premature equipment failure caused by electric power quality problems. Omniverter has wide experience in finding the best possible solution through data-based diagnosis to interpret the power quality data. Our solutions correct voltage sags, harmonic distortion, voltage magnitude regulation, momentary power outages, transients, and resonance.

EXISCAN™ FOTRIC

Sense the Digital Future

EXISCAN Industrial Electrical Safety Products. IR Windows, Dual View Windows (IR and visual inspection), Ultra Sound Ports, Industrial IR and acoustic imaging cameras by Fotric. Windows made in the USA and all windows and ports have a life time warranty!

GAVAN-GRAHAM

ELECTRICAL SOLUTIONS

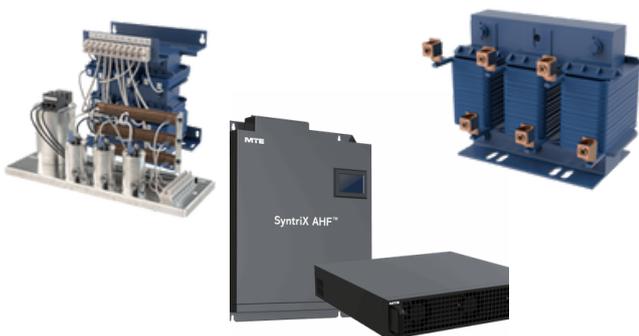

Premier provider of electrical switchgear and power distribution equipment with a penchant for customer service and engineering highly complex solutions. Gavan Graham provides Electrical solutions, Panelboards, Switchgear and ElectroHouses.

MTE

POWER QUALITY. SOLVED.
A STEEL PARTNERS COMPANY

MTE Corporation provides simple, robust power quality solutions. Power quality management requirements differ significantly by utility, industry, application and country. MTE offers many power quality and filter products for both input (line-side) and output (load-side) of variable frequency drives (VFDs) and power conversion equipment.

OMEX – FOR THE ONES

POWERING AMERICA

Omex Industries provides UL/CSA-standard transformers for commercial, industrial, solar, and utility sectors across North America. Low and medium voltage options available, dry and oil filled as well as pole mount. Custom substation transformers up to 150 MVA (11 KV to 220KV Class).
