

CAL INDUSTRIAL SALES CO.
 4749 BENNETT DRIVE, SUITE J
 LIVERMORE, CA. 94551
 925-371-8125 Fax: 925-371-5673

MICRO-EPSILON designs and manufactures high-precision sensors, instruments and systems for displacement, position, dimension and temperature.

"America's Largest Manufacturer of High Impact Polycarbonate Enclosures" with more sizes than any other mfg. NEMA 4/4X and IP69 rated. UL/CUL/CE Listed. Stronger, lighter and more UV resistant than fiberglass enclosures. Eco-Friendly Recyclable

Pfannenberg is the leading global manufacturer of enclosure thermal management equipment, and liquid cooling solutions for industry. Filterfans, AC units, heat exchangers, chillers.

More than safety.

Euchner is a leading manufacturer and innovator of safety switches and safety sensors for safeguarding people, machines and processes. Solutions for automation include joysticks, pendants and precision limit switches.

Leading manufacture of power and signal interconnect products, PCB terminals and connectors, Power supplies, Industrial Ethernet Programmable safety controllers, "PODIS" power distribution systems, and Heavy Duty Connectors

E-T-A offers over current protection for the automation & process control industry. This includes Din Rail Mount Circuit Breakers, DinRail Mount Socket Breakers, Fuse Replacement, and Intelligent Networked Power Distribution Systems.

Integrated panel management systems and products designed to simplify the installation process.

icotek, makers of smart cable management systems, has been developing high quality innovative solutions since 1995. icotek's split cable glands and EMC solutions are ideal for todays mechanical engineering and plant construction industries.

ASO Safety. The world leader in both standard and custom designed safety edges, bumpers, safety mats and the associated monitoring relays.

TIME MARK

3-phase monitors, "Signaline" multi-function timers, alternating relays, current monitors, voltage sensors (AC & DC), pump/motor load controls. Custom/OEM manufacturing also available.

Industrial enclosures, both standard and custom. Extensive value add capability, universal NEMA ratings, mixed IT and power capabilities.

PQC portfolio includes MANGOLDT Line/Load Reactors, Input Harmonic Filters, Sine Wave/dv/dt Filters, L-C-L Filters, as well as FRAKO capacitors and related components used in addressing IEEE19 standards and other power quality concerns.

LEESON Electric, the world's most customer-focused motor, gearmotor and drives company. Marathon has an extensive product line of AC & DC electric motors. Integral and fractional, general service, VFD Rated, HVAC, Pump Motors and Class 1 Div. 2 hazardous location. PMAC & PMDC Motors. Micro MAX™, Black MAX®, Blue MAX®, SyMax™

a Siemens Business

Russelectric® A Siemens Business, manufactures Automatic and bypass isolation transfer switches, paralleling switchgear and microgrid control to help ensure 100% uptime. We engineer solutions for hospitals, data centers, airports, water treatment, renewable energy, DoD and other mission-critical facilities. • Responsive field service, Preventive maintenance, and upgrades for all products provided by Russelectric field service engineers.

Sprecher + Schuh offers a wide range of low-voltage industrial control products, including contactors, a variety of relays, starters, push buttons, switches, terminals and controllers.

A company of MARECHAL ELECTRIC GROUP

Meltric Corp. Manufacturers high quality industrial and hazardous location plugs and receptacles including UL Listed devices which are used as a disconnect switch up to 200amp and 100HP.

AnaMet Electrical Inc. - For over 100 years Anamet has been the global leader in flexible liquid-tight electrical wiring conduit and industrial stainless steel stripwound hose markets. Our SEALTITE® brand name is recognized worldwide for our innovation and quality. We support all industries from residential/commercial construction, MRO, OEMs, government, RFI shielding, power generation, mass transit, utility, oil/gas, food processing, nuclear and chemical processing.

Invertek is dedicated to providing easy to use AC drives for the control of electric motors in industrial automation applications around the world. • Our AC variable frequency drives provide energy efficient control across a range of applications that include fans, pumps, industrial automation, HVAC building services and more. • From fractional horsepower to 450 HP we can handle your demanding applications in production level environments requiring IP20, NEMA 12 or NEMA 4X variable frequency drives.

Bender Inc. is the leader in ground fault detection systems for increased electrical safety and reliability in electrical distribution systems.

GracePort® Panel Interface Connectors are convenient access- ports that allow you to safely bridge the gap between you and your PLC. GracePESDs® Permanent Electrical Safety Devices. Products include Voltage Indicators, Voltage Portals and Safe Test Points. GraceSense™ IIoT smart devices make up a Predictive Maintenance System; a suite of continuous asset health monitoring technology.

TK manufactures an extensive range of industrial cables and connectivity solutions for industrial applications including motion control, renewable energy, and transportation. Icotronix, part of TK group, designs and manufactures M23 connectors in Germany.

SNC Manufacturing builds dry type transformers and custom magnetics. • This includes industrial control, chokes, reactors, military grade, medium voltage, and toroidal transformers. Value added services: over molding, brackets, enclosures, and custom design assistance.
